

Habit Tracker Project Synopsis

Prepared By: Sushma Rakesh

Objective

Develop a Habit Tracker in Google Sheets/Excel to monitor daily habits, calculate completion progress, and visualize consistency using charts and conditional formatting.

Tools Used

Google Sheets / Microsoft Excel, formulas, conditional formatting, charts.

Features

Track daily habits, Yes/No completion, automatic completion percentage, progress bar, summary dashboard, charts.

Workflow

Create habit table, apply data validation, use COUNTIF formulas for completion, build progress bar, create charts and dashboard.

Outcome

The project demonstrates spreadsheet automation, reporting, and dashboard creation for personal productivity tracking.
